Dear Deborah and Judy,

We appreciate you taking time to gather questions from the Task Force before your upcoming Council meeting. This Mission Fund is an important factor to the future work of the Grail and how we do Grail Mission work in the world.

I've asked the Task Force to send you their questions, CC'ing the Task Force to avoid duplicate questions and to work as springboard for other questions.

My questions:

- 1) Has the job description for the Task Force changed since our group was started?
- 2) If we are not to engage with members at this time do you want us to continue developing a plan for a Mission Fund, or would you prefer we not get too far into the work without member input and support?

Thanks again for your time and for all you do for the Grail.
peace & blessings,
Terri
