

REPORT OF THE GRAIL COMMUNICATIONS COMMITTEE

20 February 2019

Submitted by Carol Skyrn

Who are the current members of your committee?

Judith Blackburn, Mindy Burger, myself. Pam Hall was an active member, and a knowledgeable one, in the beginning but I think she resigned.

Do you have a current chair? Who is the chair? If you do not have a chair, can you choose one, and if so, who?

Neither Judith nor I were aware that we are supposed to be co-chairs of this committee. Terrie Puckett has been the much appreciated driving force of the work done on the Grail website.

What have you been working on?

We have responded to Terrie's memos on the Grail website.

Are there any obstacles to your work that need to be addressed?

Inertia, other commitments, declining interest in the Grail

Do you have the resources you need to complete your work?

As long as Terrie is on the project, and gets feedback from members, I am satisfied.

Do you anticipate changes in the membership of your group next year?

I, for one, am not interested in being on this committee. I don't know about others.

Are all committee members able to fully participate? If not, do you have any suggestions to address it?

As is clear from this report, we are not really participating very much. Terrie is carrying most of the work load. Perhaps some different members of the committee?
